

Commonwealth Coordinated Care Plus Update – February 2017

We are pleased to provide you with the following important updates on the Department of Medical Assistance Services CCC Plus program initiative.

Background

As communicated previously, DMAS, with support from the Governor and the General Assembly, is currently working to implement a new managed long term services and supports (MLTSS) initiative. The program name for the delivery of MLTSS is Commonwealth Coordinated Care Plus (CCC Plus). CCC Plus will operate statewide across six regions as a mandatory Medicaid managed care program. DMAS plans to launch CCC Plus by region beginning in the Tidewater region on **August 1, 2017**. CCC Plus will focus on improving access, quality, and efficiency through a coordinated delivery system that emphasizes integrated care and value-based, alternative payment models. CCC Plus will serve approximately 214,000 individuals including adults and children with disabilities and complex care needs. CCC Plus will also include individuals who qualify for both Medicare and Medicaid, as well as individuals that receive long term services and supports through a nursing facility or through the community. Detailed information on CCC Plus populations, services, and regional implementation schedule is available on the CCC Plus webpage at http://www.dmas.virginia.gov/Content_pgs/mltss-home.aspx.
