

Virginia Network of Private Providers, Inc
DLA-20 Training for Staff

VNPP is pleased to be able to offer, as a Member benefit, training for Behavioral Health Providers on the use of the DLA-20 Assessment for both youth and adults. This tool, currently required for use by the CSBs, is becoming the standard for the measurement of outcomes!

Training can be offered at your location for up to ten staff; the training takes approximately 4 hours and is tailored for **either** youth or adults. Providers who wish to have staff trained for both age groups should plan on a full day for training. Ideally the site will have a projector and computer to support the use of a power point presentation.

Costs:

- Class (~4 hours) \$350.00
- Mileage (if outside the Richmond Metro) 54.5¢/mile
- Meals/Lodging (if applicable) At Cost

If you are interested in scheduling training for you staff, please complete the following and return it to jennifer@vnppinc.org
